## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "respectively" in claims 1 and 8 is a relative term which renders the claim indefinite. The term "respectively" is not defined by the claim for one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. The claim recites processing modes but fails to claim as what they are and how are they connected to the term "respectively".

Claims 2-7 and 9-12 are the dependent claims and therefore they are rejected too.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 2623

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

4. Claims 1 and 8 as best understood are rejected under 35 U.S.C. 102(a) as being anticipated by Armin (FR 2784066).

With respect to claim 1, Armin discloses the finger print information capturing means (see figure 1, numerical 34), a fingerprint information storage means for pre storing at least a piece of fingerprint (see page 5, lines 33-36); a fingerprint verification means (see figure 1, numerical 26, and page 6, lines 13-16); a fingerprint processing means for performing a plurality of process (see page 6, lines 10-23); and a manipulation detection means and processing mode switching means (see page 6 line 23 through page 7 line 24, also figure 1, numerical 18, 16 and 14 as the manipulation means) as claimed.

Claim 8 is rejected for the same reasons as set forth for the rejection of claim 1, as claim 8 is claiming similar subject matter as claim 1. Also, Armin discloses the external unit (see page 8, lines 4-6) as claimed.
